

TONE's powerful Touch 03 single serve brewer unleashes the full potential of coffee and tea at the touch of a button.

It enables a 100% customization of coffee and tea beverages through the intelligent recipe development by product, by volume, by flow, by strengths and by temperature. The Touch 03 focuses on controlled agitation and programmable flow rates and pulse patterns at different stages of brewing: blooming-, turbulence-, development phase. As boiler-less standalone brewing solution, it channels the water through a highly innovative heating element and forgoes without heating phase, which gives the barista the possibility to change recipes immediately to profile various coffee and tea beverages in different temperatures at any time.

The most revolutionizing brewer on today's market has all the operational capability to take the modern brew bar to the next level.

- Ability to profile each recipe
- Full control on adjustable flow rates and pulse patterns at different stages of brewing: blooming-, turbulence-, development phase.
- Endless recipes for tea and coffee programmable
- Up to 2 L batch brews
- Boiler-less brewer - brew at 94Celsius within 2 seconds after switching on
- Attached Wifi-antenna for browser based calibration of recipes via tablet.
- Adjust recipes anywhere in the world and see all data on the machine in real time
- Colour variations: white/grey, all-white, black/grey, all-black

SPECIFICATIONS

Dimensions in mm (w x h x d)	242 x 505 x 320
Weight	26 kg
Power	220 - 240V 50/60Hz
Max. Brewing volume	2 liters
Flow max.	9g/sec.
Heating	3450W
